WORK EXPERIENCE

QA INTERN | RALLEYENGINE INC, CALGARY, AB.

May 2017 - August 2017

- Developing, Executing, and Evaluating Software Test Plans
- Creating Effective Integrations which support Continuous and Meaningful Feedback
- Working in Agile Software Development Environment.
- Gaining professional experience in Test Driven Development, Security Protocols, Quality Assurance, and DevOps.

TEACHING ASSISTANT | CARLETON UNIVERSITY, OTTAWA, ON.

January 2017 - April 2017

- Previously employed as a TA for COMP2406 (Fundamentals of Web Applications)
- Conducted tutorials to help students understand the concepts of JavaScript, NodeJS/ExpressJS, AJAX, HTML/Pug, CSS & Bootstrap
- Developed effective communication & time-management skills

PROJECTS

EFFECTIVE WEB-DEV TUTORIALS | HTML, CSS, JQUERY, NODEJS & MONGODB

May 2017 - current

- Currently working with a professor, on creating a complete set of effective tutorials for COMP2406 (Fundamentals of Web Development) at Carleton University
- These new tutorials will provide a better way to allow students in understanding the concepts behind Web Technologies such as NodeJS, ExpressJS, jQuery/AJAX, Javascript, MongoDB, HTML and CSS

MEALSHARE - RHOK 2017 | NODEJS, JQUERY & BOOTSTRAP

March 2017 - current

- Continuing from the Random Hacks of Kindness (RHOK) event hosted by Avaya at Adobe
- Working with Mealshare (a non-profit organization) to make their web-based restaurant on-boarding package
- This will immensely reduce the manual/paper work a coordinator has to do in order to register new partners into their Salesforce

CHATIT - QHACKS 2017 | ANGULAR2, JQUERY, HTML5 & BOOTSTRAP

February 2017

- Worked on the front-end routing for a Social Travel Itinerary Web-Application
- Designed the Home, Login, Logout and Dashboard Pages, together with the GET & POST requests for their forms
- Aided in the Natural Language Processing of the application's Chatbot which was integrated to Twilio's SMS Service, for 24 hour access to the top activities in locations for users
